

**We've been serving industries
around the world since 1992.**

**PADMAVATHI
INDUSTRIAL
CORPORATION**

ALUMINIUM | COPPER | STAINLESS STEEL | BRASS

Our Range of Products

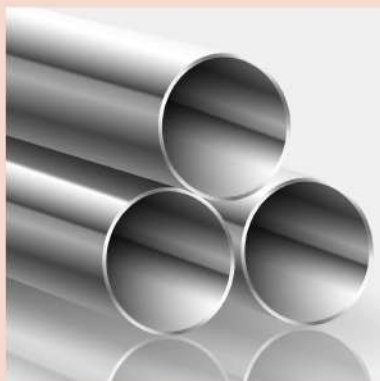

ALUMINIUM

Our aluminum products are engineered for durability, versatility, and precision, offering innovative solutions for a wide range of industries.

COPPER

Our copper products combine superior conductivity, strength, corrosion resistance, making them ideal for a variety of industrial applications.

STAINLESS STEEL

Our stainless steel products are crafted for exceptional durability, strength, making them perfect for demanding environments.

BRASS

Our brass products offer a unique combination of strength, aesthetic appeal, making them ideal for functional and decorative applications.

ALUMINIUM

ALUMINIUM ROUND PIPE SIZES

Our Aluminium Round Pipes are suitable for use in structural frameworks, piping systems, furniture manufacturing, transportation components, and general fabrication for all industrial, commercial and residential purpose. With precise dimensional tolerance, consistent surface finish, and various lengths and wall thicknesses.

12.70 OD × 1.6 mm WT	38 OD × 6 mm WT	63 OD × 3 mm WT	101.60 OD × 3 mm WT
16 OD × 3 mm WT	40 OD × 5 mm WT	63 OD × 6 mm WT	101.60 OD × 6 mm WT
19 OD × 1.6 mm WT	45 OD × 5 mm WT	76 OD × 3 mm WT	114 OD × 3 mm WT
19 OD × 3 mm WT	45 OD × 10 mm WT	76 OD × 6 mm WT	114 OD × 6 mm WT
19 OD × 6 mm WT	50 OD × 3 mm WT	76 OD × 10 mm WT	127 OD × 3 mm WT
25 OD × 3 mm WT	50 OD × 12.5 mm WT	76 OD × 13 mm WT	127 OD × 6 mm WT
25 OD × 6 mm WT	50 OD × 9 mm WT	80 OD × 5 mm WT	150 OD × 7 mm WT
32 OD × 3 mm WT	50 OD × 6 mm WT	80 OD × 10 mm WT	160 OD × 10 mm WT

38 OD × 3 mm WT	60 OD × 10 mm WT	89 OD × 3 mm WT	

ALUMINIUM

❁ — ❁ Aluminium Square Pipe Sizes ❁ — ❁

Manufactured using premium-grade aluminium alloys, our square pipes are well-suited for use in load-bearing structures, frames, fabrication assemblies, display systems, and architectural applications. These pipes offer uniform geometry, high dimensional stability, and are available in a wide range of sizes, thicknesses, and lengths. All variants are supplied as per global standards, ensuring compatibility with welding, cutting, and machining operations.

25× 25 × 3 mm
32x 32 × 3 mm
50× 50 × 3 mm
38 × 38 × 3 mm
75 × 75 × 3 mm
100 × 100 × 3 mm

ALUMINIUM

❁ —❁ Aluminium Rectangle Pipe Sizes ❁ —❁

Our rectangular pipes offer excellent load-bearing capacity, smooth surface finish, and dimensional precision. Ideal for architectural structures, support frames, enclosures, transportation equipment, and modular constructions, these pipes are available in a variety of wall thicknesses and sizes.

50 × 25 × 1.5 mm
50 × 25 × 3 mm
63 × 38 × 3 mm
100 × 45 × 1.5 mm

ALUMINIUM

— Aluminium Angle Sizes —

Offering excellent structural stability, machinability, and resistance to corrosion. These L-shaped profiles are widely used in support frames, brackets, construction reinforcements, edge protection, shelving systems, and general fabrication. Available in equal and unequal leg dimensions, our angles come in various thicknesses and lengths.

19x19x3mm	50x50x6mm
25x25x3mm	75x75x3mm
25x25x5mm	75x75x6mm
32x32x3mm	75x75x10mm
38x38x3mm	100X100X6mm
38x38x6mm	100 x 100 x 10mm
50x50x3mm	

ALUMINIUM

❧ — ❧ Aluminium Channel Sizes ❧ — ❧

Our aluminium channels provide excellent rigidity, weldability, and resistance to environmental factors.

These U-shaped profiles are commonly used in frameworks, support structures, sliding systems, architectural trims, and equipment enclosures. Available in various sizes, wall thicknesses, and lengths.

100x50x6mm

75x38x6mm

ALUMINIUM

Aluminium Flat Sizes

Our aluminium flat bars provide excellent strength, machinability, and weldability. These flat sections are widely used in structural bracing, support components, fabrication, signage, transportation, and general engineering work. Available in various widths, thicknesses, and lengths, our flats are precision-cut to meet exact tolerances.

12x 3mm	25x10mm	50x3mm	80x6mm	150x10mm
12x 6mm	25x12mm	50x6mm	80x10mm	150x12mm
19x 2mm	32x3mm	50 x 10mm	80x12mm	160x10mm
19x3mm	32x6mm	50x12 mm	100x6mm	160x12 mm
19x6mm	32x10mm	63x6mm	100x10mm	180 x 10mm
19x 10mm	32 x 12 mm	63x10mm	100x12mm	200x6mm
25x 1.5mm	40x3mm	63x12mm	125x6mm	180x12mm
25x2mm	40x6mm	75x6mm	125x10mm	200x10mm
25x3mm	40x10mm	75x10mm	125x12mm	200x12mm
25x6mm	40x12mm	75x12mm	150x6mm	

ABOUT US

The Humble Beginnings of a Visionary

Padmavathi Industrial Corporation was founded in 1992 by Mr. Ajeeth Kumar, a visionary entrepreneur who rose from a humble background in a small village.

Through relentless hard work, dedication, and an unwavering commitment to excellence, he transformed the company into one of the largest stockists of aluminium round pipes, angles, and flats in the region. Under his leadership, the company earned a reputation for reliability, quality, and customer satisfaction.

→ Inspired by values of integrity and service

→ Building Quality and Trust
